

## SERIES SPONSORS

The production of the entire *HANZAB* series, including this current volume, was possible only through the generous sponsorship of the project by the following individual benefactors, trusts and foundations and corporations. We are grateful for their support and their recognition of the value of this project to the ongoing conservation of the birds of our region. Without this financial support we would not have *HANZAB*.

Below we have listed all those who have provided substantial ongoing support throughout the *HANZAB* project and whose commitment has done so much to ensure the success and continuation of the series.

On the following pages we list all those who have supported financially this concluding volume. Our principal sponsors have each donated \$100,000 or more towards this or another volume of *HANZAB*.

### Principal sponsors
