

APPENDIX VI

CONTRIBUTORS TO VOLUME 2

Many people submitted original contributions that provided the basis for the texts published in this Volume. These contributions ranged from material for one or two sections to complete accounts, though, for all species, Plumages and related matters were prepared by HANZAB staff. For all these contributions we are grateful. All texts were edited by the HANZAB staff for their relevant sections and final responsibility for the texts lies with them and the editors; texts should not be cited to individual contributors.
